Version 11.0.6.4 Changes (02/10/2016)

Take Course Now! Click to watch a video of these enhancements in Compulink University.
- You'll need the Username and Password associated with your student account to log in.
- Ask your manager or Compulink Administrator if you don't have this information.

Function changes:
1. Function > Insurance Activities > Remittance Posting.
   - You now have the option to move the Remittance Posting window over, leave it open, and also access the Patient Demographics and Patient Ledger.

Report changes:
2. Report > Marketing > Patient Demographics with Options.
   - This is now in general release and no longer in BETA.
   - Options 'Last Service Date From' and 'Last Service Date End' were added to allow the report to be run for current patients only.
   - Option 'Include Closed Accts?' was added to be able to filter the report for only open accounts. Default is True for inclusion; set to False to exclude those accounts from the report.
   - Option 'Include Accts on Collection?' was added to be able to filter the report for accounts not on Collection. Default is True for inclusion; set to False to exclude those accounts from the report.
   - Option 'Include Inactive Patients?' was added to be able to filter the report for active patients only. Default is True for inclusion; set to False to exclude those accounts from the report.
3. Report > Financial > Analysis > Office Production Reports.
   - The following reports have been moved out of the Beta phase and into production: Office Production w Inline Adjust and Office Production Quick View.
   - Each report will have text at the top listing the Data Source and Report Definitions.
4. Report > Financial > Analysis > Revenue with Flexible Grouping.
   - This report has been moved out of the Beta phase and into production.
   - You now have the option of running the report for an individual, multiple or ALL Service Locations, Provider IDs, Departments and Categories. When entering multiple options, they must be separated by commas (Example: SQS,DRD).
   - You may also run the report by Primary Insurance, giving you the ability to report on Insurance by Provider.

Table changes:
1. Utility > Look-up Tables > Spectacle > Lens > Definitions.
   - DVI Mapping codes were added to the Lens Definitions table.

Utility changes:
1. Utility > System Administrator > PracticeWatch Service Install.
   - Installing the software.
     - Since services can't run from a mapped network drive, if it sees a mapped drive in the ADS.ini path, it will prompt a folder selection window to choose the local path of the product folder for installation.
   - Updating the software.

Compulink Business Systems, Inc | 1100 Business Center Circle | Thousand Oaks, CA 91320 | 800.888.8075

1

- If an update to the PracticeWatch Service is needed in the future, you will go to PracticeWatch Service Install.
- The PracticeWatch Setup window will open with an option to 'Update PracticeWatch.'
2. Utility > PracticeWatch Setup.
   - When adding a Report Task, not all Compulink reports will be displayed.
   - Some of the Compulink reports run on pre-processed data; these reports will not display in the list, as they will not function with the PracticeWatch utility.
   - Compulink is in the process of adding new reports that will give you the same, if not more options than these original reports.
3. Utility > Health Care Maintenance Rules/Orders > Diagnosis/Orderset Mapping.
   - Order Sets and Educational Materials have been added for ICD-10 Codes starting with H52.

Patient changes:
1. Insurance Eligibility.
   - From the Insurance area, highlight a carrier and click on Eligibility.
   - This report is organized by the Service types, and will now display all appropriate messages.
   - If there is a general message for the entire inquiry (not just a Service type), the message will display at the end of the report.

Appointment changes:
1. You now have the ability to minimize the Enhanced Patient Scheduler.

Exam changes:
1. Sending Educational Materials to the Patient Portal.
   - Educational Materials that are added with a Delivered method of Print or Verbal will NOT be uploaded to the Patient Portal.
2. Keratometry readings added.
   - Keratometry readings were added to the following tabs for easy viewing when entering the Contact Lens prescription: PopUpCLDiagnostic and PopUpCLDiagnostic (Style 2).
3. Tear Analysis history added.
   - Hover your mouse over the bolded 'Tear Analysis' caption to get a PopUp Hover History window showing the historical data for these fields.
   - This change was made to the following tabs: Anterior (Style 1), Anterior Style 2), Anterior/Posterior and Objective.
4. ENTER key will now work when entering the ADD value.
   - When adding the Refraction, you may choose an Add power of Low, Med, High, S1, S2 or S3 and then use the ENTER key on the keyboard to move to the next field.
5. A new 'Post Op Anterior (HiRes)' tab was added.
   - This tab has everything that is needed for a patient that has a procedure performed on the anterior segment of the eye
6. A new 'Post Op Anterior (HiRes)' layout was added.
   - This will give you a 1 tab HiRes solution rather than 6 tabs.

Client Requests that were Satisfied with this Version

1. Ability to toggle between the Patient Ledger and the Electronic Remittance Posting window.
   NEW FEATURE: Function > Insurance Activities > Remittance Posting.

- You now have the option to move the Remittance Posting window over, leave it open, and also access the Patient Demographics and Patient Ledger.

2. Minimize Enhanced Appointment Scheduler.

    NEW FEATURE: You now have the option to minimize the Enhanced Appointment Scheduler.

3. Multiple requests for Report > Marketing > Patient Demographics with Options.

    NEW FEATURE: Report > Marketing > Patient Demographics with Options.
    - Options 'Last Service Date From' and 'Last Service Date End' were added to allow the report to be run for current patients only.
    - Option 'Include Closed Accts?' was added to be able to filter the report for only open accounts. Default is True for inclusion; set to False to exclude those accounts from the report.
    - Option 'Include Accts on Collection?' was added to be able to filter the report for accounts not on Collection. Default is True for inclusion; set to False to exclude those accounts from the report.
    - Option 'Include Inactive Patients?' was added to be able to filter the report for active patients only. Default is True for inclusion; set to False to exclude those accounts from the report.

4. Ability to run Revenue reports for multiple Service Locations, Provider IDs, Departments and Categories.

    NEW FEATURE: Report > Financial > Analysis > Revenue with Flexible Grouping.
    - This report has been moved out of the Beta phase and into production.
    - You now have the option of running the report for an individual, multiple or ALL Service Locations, Provider IDs, Departments and Categories. When entering multiple options, they must be separated by commas (Example: SQS,DRD).
    - You may also run the report by Primary Insurance, giving you the ability to report on Insurance by Provider.

5. Request to display all messages on the Insurance Eligibility Detail.

    NEW FEATURE: Insurance Eligibility.
    - From the Insurance area, highlight a carrier and click on Eligibility.
    - This report is organized by the Service types, and will now display all appropriate messages.
    - If there is a general message for the entire inquiry (not just a Service type), the message will display at the end of the report.

6. Capture Live Image/Video needs to work with more codexes.

    NEW FEATURE: Support was added for cameras that use UYVY, BY8 and Y800 codex.

7. Spectacle POS Lens Request: Varilux Physio W3+ Fit
