

**2024 Medicare Claims-Based and MIPS Quality Measures
for Psych Advantage
Instructions for Updating the Services Table
Document Revised (12/28/2023)**

In order to prepare for Quality Measure reporting in 2024, each client MUST update their Services table to include the HCPCS code changes below.

Navigate to the Service Table (Utility > Look-up Tables > Financial > Fees > Services). Use the "Add" command to add Descriptions, Post Codes and Categories. Be sure to go to each Fee Schedule and enter the correct CPT code, along with the CHARGE of 0.01 (a penny) and ALLOWED of 999.99.

For Retired and Removed codes, it is at the discretion of management to remove/delete the codes from the table.

***If there is a chance that you may have to re-bill charges for Date of Service PRIOR TO 01/01/2024, you will still need to submit these old Codes. You may leave the Retired or Removed Codes in the Services table for as long as needed.*

*Stress to your billing staff that they need to be careful NOT to post the Retired and Removed Codes for charges with Date of Service AFTER 01/01/2024.***
